

Carpet

Our professional carpet cleaning equipment does an excellent job. We are careful to test all carpets before we begin, to be sure that your carpets are color fast. We are also careful to tell our clients that we can only lift the dirt and stains that are removable. Your carpets will be clean and fresh, when we are done, but we cannot promise that they will be completely stain-free. Most stains will come out, but some stains are stubborn and simply will not lift. Others may come clean, but will reappear over time, with traffic.
